

# “Walking the road ahead”

## F&I members only evening with Susan Kjærgård

**Interactive Webinar 19:00 on 19 February 2024**

We are delighted to welcome Susan to talk to us about bridging the gap between science and practice. Apart from her involvement in the “operation X” (Helgstrand) documentary Susan has been working as an equine behaviour and biomechanics expert for many years. Her competitive career includes show jumping for her native Denmark at world and nations cup level.

In her mission to improve the lives of our equine counterparts she founded “Blue Berry Hill” using evidence based training with the horse as a respected partner in the learning process. She teaches a module in: Applied Learning Theory, with Dr. Janne Winther Christensen PhD at Aarhus university as well as the Danish “Bereiter education programme” (IGEQ Level 3) along with her own “Blue Berry Hill” approved instructor programme.

With the pressure of “Equine Safeguarding” (SLO) and the need to take practical steps forward Susan’s well of experience should prove informative and helpful to us all specifically looking at biomechanics and behaviour. For more information on Susan visit her : [www.blueberryhill.dk](http://www.blueberryhill.dk)

**Cost £10** to be paid direct to the F&I Treasurer

F&I BANK DETAILS: Lloyds Bank | Sort Code 30-94-93 | Account: 00472754

This promises to be an informative evening. If you are interested please email:
